

Education 4.0 will make your child **100%** future-ready

PIET's mission is to build creative, disciplined, confined and dynamic leaders of tomorrow. Considering technical evolution and its pace which is taking place at such accelerated speed, we are at the brink of change where the learner will be at the centre of a futuristic ecosystem - **Education 4.0**

PIET SANSKRITI SCHOOL
HUDA CAMPUS | NFL CAMPUS

Dear Parent,
Greetings!

At the outset, the PIET fraternity wishes you and your family "A HAPPY & COLOURFUL HOLI".

PIET group of institutions since its inception in the year 2006 has been driven by a holistic approach towards quality education, offering cutting-edge frameworks, multidisciplinary research supported by best-in-class infrastructure and intellectual capital. The robust faculty pushes the students to be best and provide learning that is based on developing critical thinking, analytical & logical thinking, innovation, creativity and out of the box thinking in a student.

It is our great pleasure to share with you, within a short span of time, PIET group of institutions has evolved as "Nerve-Centre" of Academic as well as Thought Leadership in the entire region.

With the constant support of the community and the society at large, The PIET group runs three centres of academic excellence. To enlist:

The Panipat Institute of Engineering & Technology: An Institute of excellence involved in the domain of Technical & Management Education.

The PIET Sanskriti School, HUDA Campus: A specialized centre of learning and development for the students from Pre-primary to the Middle school.

The PIET Sanskriti School, NFL Campus: A specialized centre of learning and development for the students from the Pre-primary to the High School.

The Institution's vision and commitment to learning and academic excellence can be gauged from the fact that PIET is one of the institutions in the country that has adopted the concept of **EDUCATION 4.0** in practice.

The learning process at PIET is driven by different elements of new-age learning tools including Blended learning, Flipped learning, Differential learning, Collaborative learning amongst others. It makes us humbled to share that PIET has introduced Artificial Intelligence enabled evaluation methodology; the evaluation tool that helps facilitators to provide curative as well as a progressive road map for the students.

PIET has established Haryana's first state of the art Startup Incubation Centre for not only its students but for innovators across the region. The centre is one

of the few institutions where the Government of India mentored SMART INDIA HACKATHON is conducted annually.

PIET has also set up a multitude of laboratories to assist the students and innovators to get hands-on experience on various immersive technologies, to enlist some of the facilities at its campuses:

1 A Virtual Reality Laboratory

2 A Robotics Laboratory

3 A Centre of Excellence operated in collaboration with University of California, Berkley

Given this backdrop and with the objective of sensitizing the parents and the community at large, PIET has initiated an Outreach Programme whereby the parents of school-going students are oriented towards the fast-changing dynamics of the global eco-system.

This Outreach program known as the "Melting Pot" series shall be held at the PIET Sanskriti School, HUDA Campus between 1st March - 20th March.

In the event, your esteemed self is interested in attending this knowledge and know more about the nuances of " EDUCATION 4.0" feel free to register for your personalized counseling session by reaching us at: **NFL Campus - 9069657000/ HUDA Campus - 9069645000**

Also, find enclosed herewith the following:

- An invitation for **PSAT 2020: PIET Scholarship Admission Test**

- Flyers detailing the initiatives taken by The PIET Sanskriti School, HUDA Campus and The PIET Sanskriti School, NFL Campus.

We sincerely believe you shall collaborate with us helping sensitize the community about "EDUCATION 4.0" and it's transformative impacts.

Feel free to reach out to us for suggestions and feedbacks.

Thanking you

Yours Sincerely
TEAM PIET
