

# CLIMB THE LADDER

First Edition 2019-2020

**PIET SANSKRITI SENIOR SECONDARY SCHOOL  
NFL PANIPAT**

They say it is the first step that costs the effort. I do not find it so. I am sure I could write unlimited 'first chapters'. I have indeed written many.

# Enrichment Session

Teachers are a great source of knowledge, prosperity and enlightenment to the children which benefits the whole life. There is an important role of teachers in everyone's life. A teacher is a best gift from God to us. Teaching is profession but teacher is like a god as a god is the builder of the whole universe similarly the teacher is considered as a builder of a good nation. Parents expect a lot from the teachers for their children.

# Riddles

# The Magical Pen

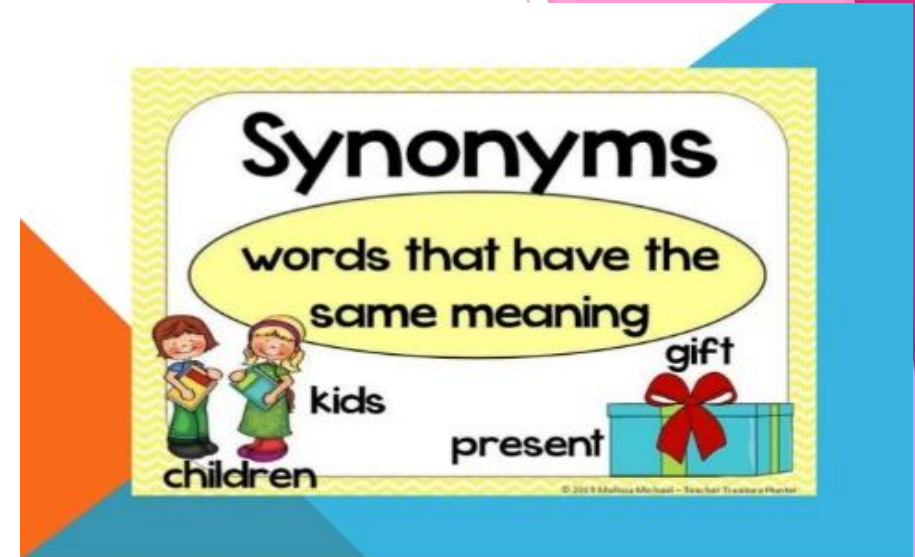

There was a boy name Ram. He did not like studies. His parents were worried. Then he call to grandfather. Grandfather give a magical pen to Ram and he said, " write every question five time then it will work. On the exam day he did all the question. On the result day he got full marks. He thanked his grandfather for the magical Pen. But the grandfather said that it was not a magic pen rather a normal pen.

Moral :- Don't believe on Magic.

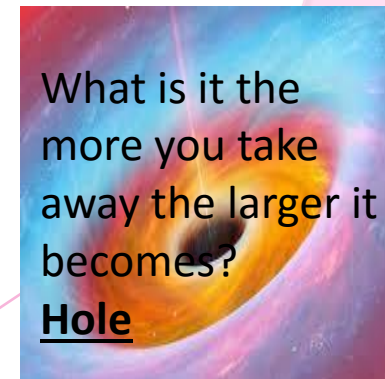

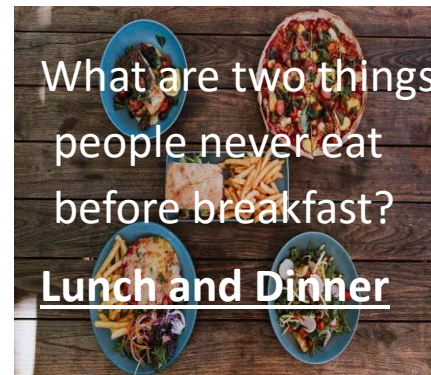

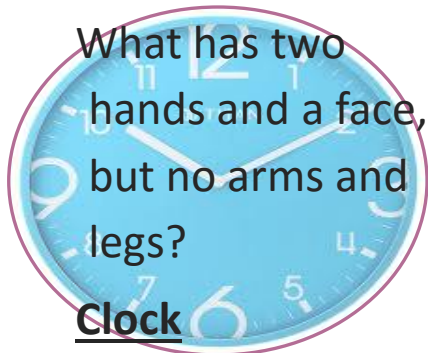

# Synonyms

- ▶ Relax:- Lessen, Lighten
- ▶ Pretty:- Lovely, good-looking
- ▶ Sky:- Airspace, the Skies.
- ▶ Amazing:- Shocking, Startling.
- ▶ Good:- Fine, Superior
- ▶ Happy:- Joyful, Carefree

# Riddles

# Subtraction Poem

More on top?  
No need to stop!

$$\begin{array}{r} 58 \\ - 3 \\ \hline 55 \end{array}$$

More on the floor?  
Go next door and  
get 10 more!

$$\begin{array}{r} 55 \\ - 8 \\ \hline 47 \end{array}$$

Number's the same?  
Zero's the game!

$$\begin{array}{r} 58 \\ - 8 \\ \hline 50 \end{array}$$

See The Boy  
Watch Him Skate

$$4 \times 7 =$$

I ate and I ate  
and got sick on  
the floor.

8 times 8 is 64!

$$8 \times 8 = 64$$

7x7 is cool  
and fine!

$$7 \times 7 = 49$$

Hurry Up,  
Don't Be Late

$$6 \times 8 = 48$$

Meet My Pet

His Name Is Shorty,

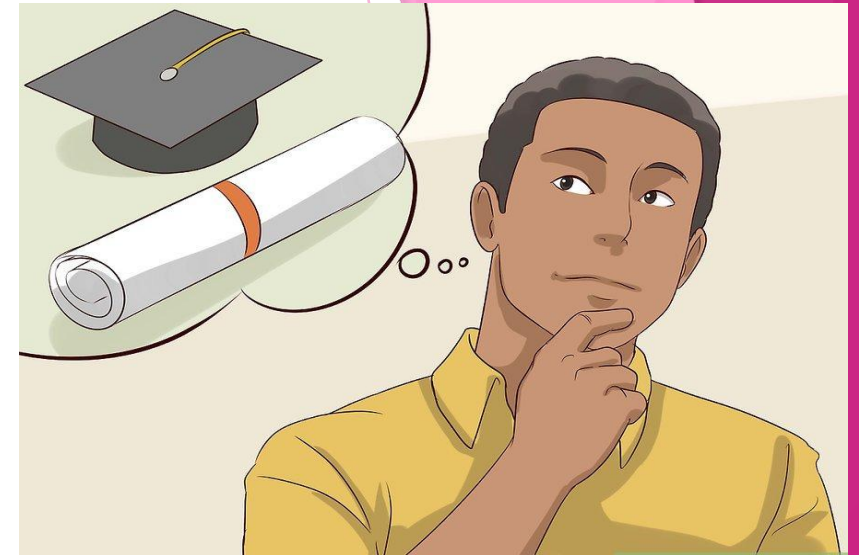

$$5 \times 8 = .$$

# How to plan the study time

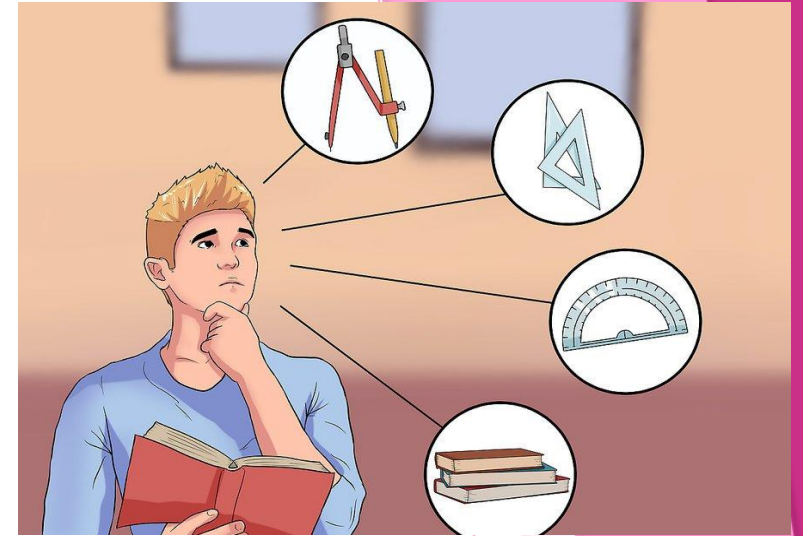

- 1. Establish short-term and long-term goals for studying.** It will be easier to create and manage your schedule if you know what you want to achieve at the end. This will also help you identify areas that you need to focus on.

- 2. List all the subjects you need to study.** Perhaps the first step in creating your study schedule is to list all of the subjects and courses you need to study for. Putting your obligations on paper will help you get a better idea of what you really have to do. If you have specific exams to study for, list these instead of courses.

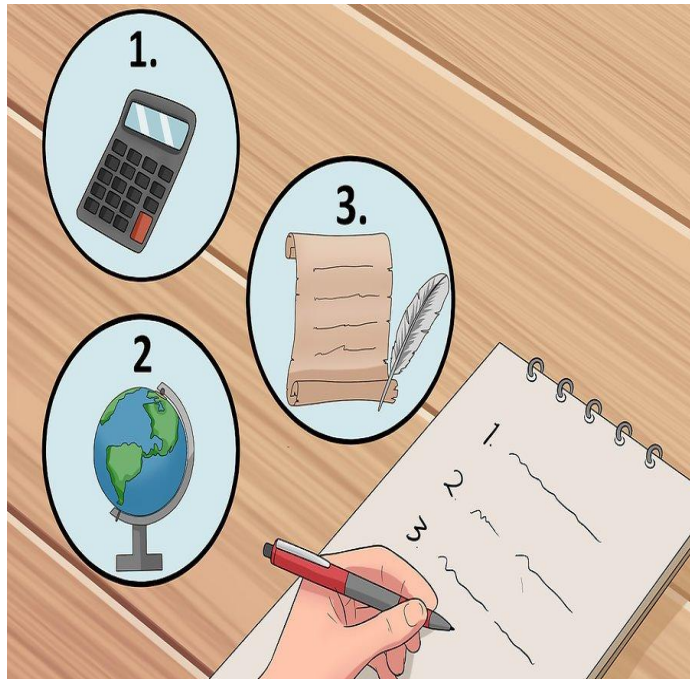

### 3. Figure out what you need to do for each subject or exam

- If you have a study guide or a textbook with review sections, use it to narrow down what you list.
- Reserve time for reading.
- Reserve time for reviewing your notes.
- Reserve time to create exam study guides, if you'll need them

### 4. Prioritize your list

- Put a number, starting with one, next to all of your subjects or exams.
- If you need the most time for math, give it a one.
- If you need the least time for history (and you have five subjects to study for), give it a five.
- Take into account difficulty of the subject or exam or the lessons you need to cover.
- Take into account the amount of reading you will need to do.
- Take into account the amount of reviewing you will need to do.

## 5. Divide your available time during the week into study blocks

Before you go on, you need to divide up your available time during the week into study blocks.

## 6. Reserve time for non-academic activities

- Reserve time for events you can't reschedule, your grandmother's birthday, a family reunion, or your dog's veterinary appointment.
- Block off any times you have other commitments such as swim practice, family time, or religious services.
- Reserve plenty of time for rest, sleep, and exercise.
- If you only have a very limited amount of time before important exams, consider postponing or canceling regular social or extra-curricular activities.

## 7. Fill in your study blocks

Once you've got your schedule blocked out and you know what you need to schedule, fill in your schedule. Write down which subject you are studying in each session. This will help keep you on track, create checkpoints for the material, and allow you to organize your textbooks and study materials ahead of time.

# Useful Proverbs All English Speakers Should Know

**The grass is always greener on the other side of the fence.**

“The grass is always greener” is a proverb that teaches us it’s not good to be jealous (to want what other people have). It may seem like everyone around you has “greener grass,” meaning nicer cars, better jobs, etc.

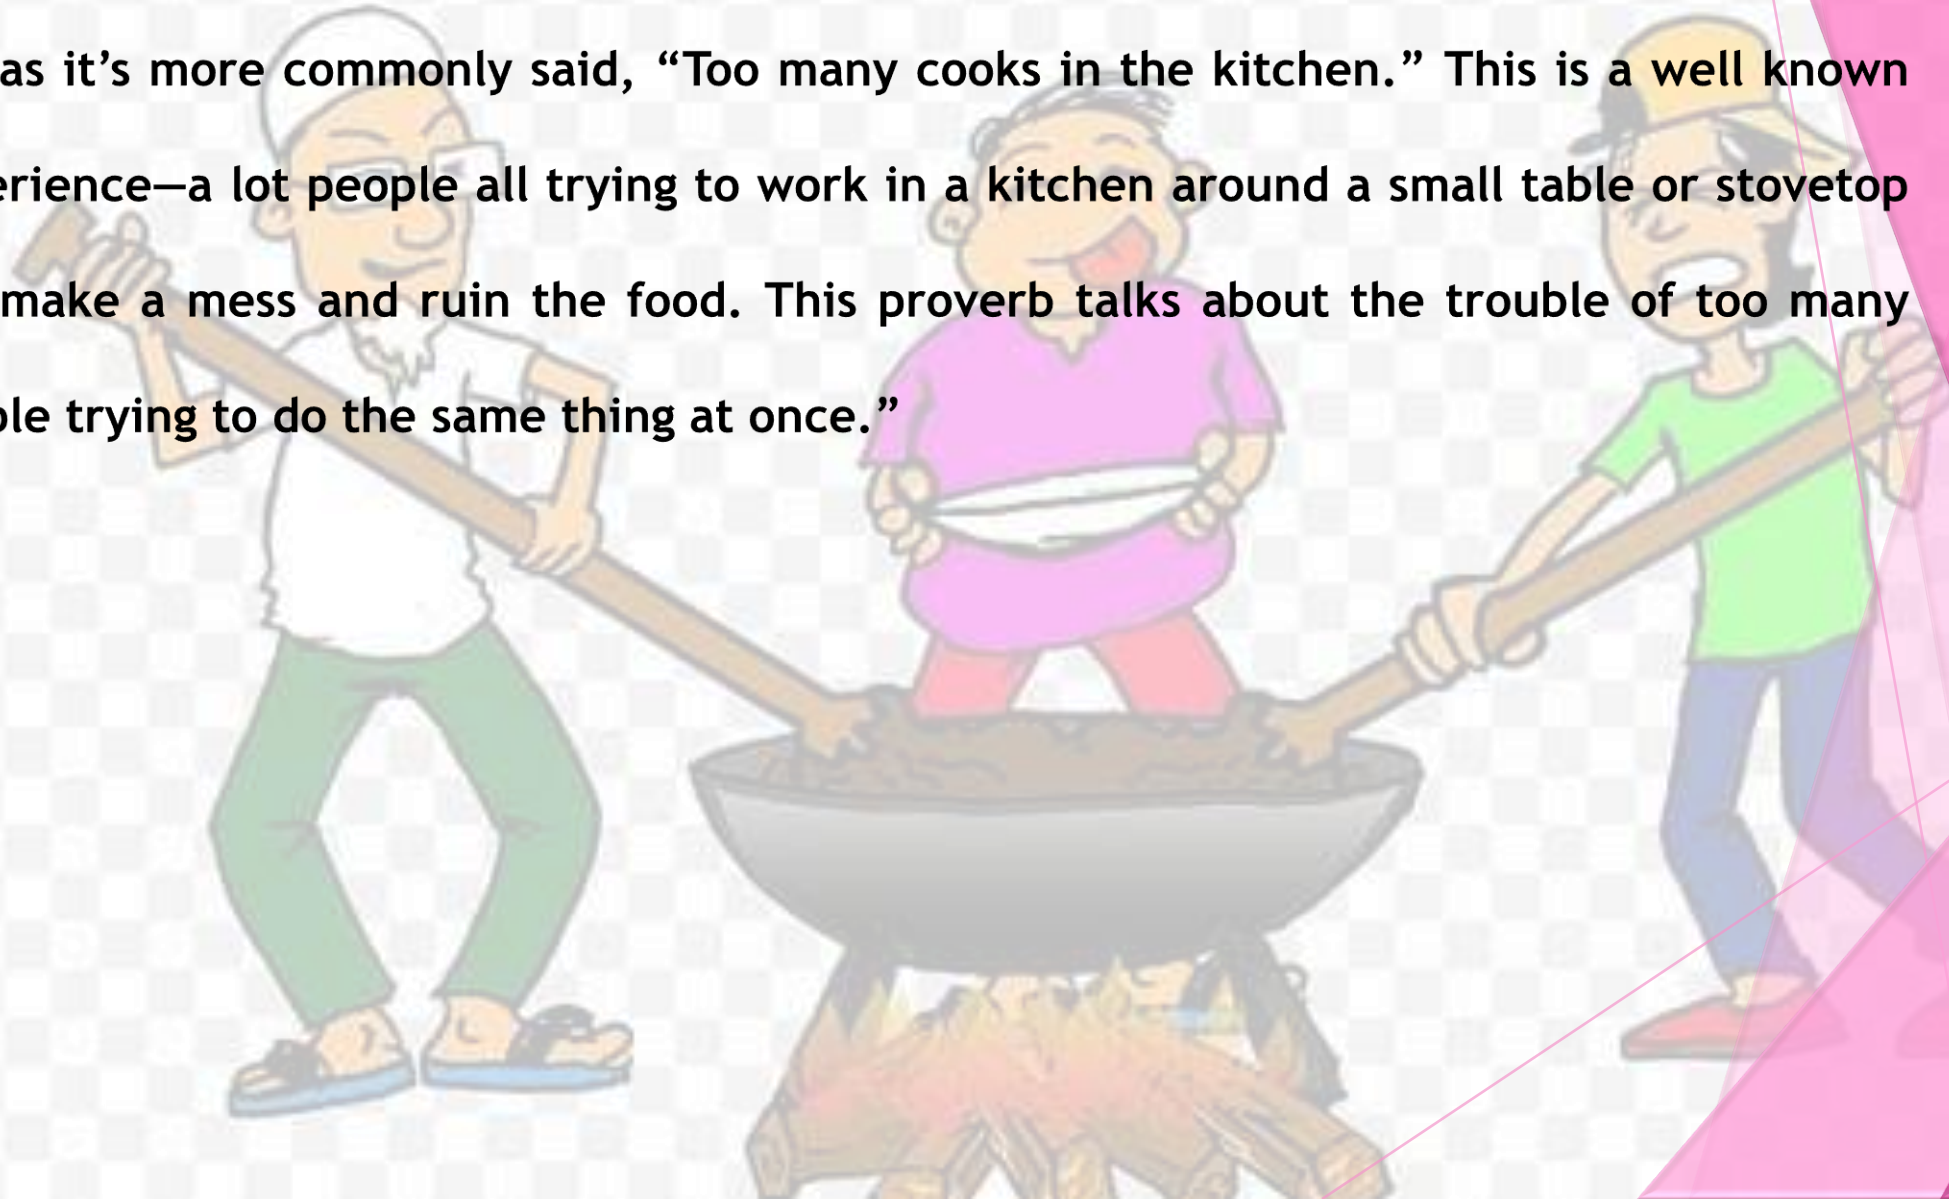

## Don't judge a book by its cover.

“Things are not always what they seem. This proverb teaches you not to make judgments about other people because of how they look or dress. A book with a boring or plain cover could be amazing. The same is true with people. A person might look like an athlete or fool, but there is probably a lot more to them than clothes suggest.”

## Too many cooks spoil the broth.

“Or as it’s more commonly said, “Too many cooks in the kitchen.” This is a well known experience—a lot people all trying to work in a kitchen around a small table or stovetop will make a mess and ruin the food. This proverb talks about the trouble of too many people trying to do the same thing at once.”

## You can't have your cake and eat it too.

“If you eat your cake, you won't have it anymore, will you? So you can't do both. This proverb is about having two opposite desires, and how it's impossible to get both. Its meaning is similar to the proverb, “You can't have the best of both worlds.”

## Practice makes perfect.

“It would be amazing if the first time you picked up a guitar you could play it like a rock star. Or if the first time you got in a car, you could drive like a professional. Or if you could speak English perfectly after one lesson. Everything is difficult when you are a beginner. But if you stick with it, if you keep practicing, you can master anything.”

# Need to know about Einstein

Einstein was slow in learning how to speak. His parents even consulted a doctor. He also had a cheeky rebelliousness toward authority, which led one headmaster to expel him and another to amuse history by saying that he would never amount to much. But these traits helped make him a genius. His cocky contempt for authority led him to question conventional wisdom. His slow verbal development made him curious about ordinary things – such as space and time – that most adults take for granted. His father gave him a compass at age five, and he puzzled over the nature of a magnetic field for the rest of his life. And he tended to think in pictures rather than words.

Einstein is famous for:

Albert Einstein's Inventions and Discoveries.

As a physicist, Einstein had many discoveries, but he is perhaps best known for his theory of relativity and the equation  $E=MC^2$ , which foreshadowed the development of atomic power and the atomic bomb.

A childhood portrait of Albert Einstein and his sister Maja

# Science Experiments

## Bending Light Through Water

Punch a hole in a clear plastic bottle two inches from the bottom. Put your finger over the hole, fill the bottle with water and cap it to keep it from draining out.

Darken the room and cover part of a flashlight with your fingers to make the beam narrower. When you take the cap off the bottle, the water will flow out in an arc. Shine the flashlight at the stream from the side of the bottle opposite the hole. The light will bend with the arc and create a bright glow where the water hits the sink.

## How Does It Work?

When the light in the stream strikes the boundary between the water and air, much of the light is reflected back into the stream. The light continues this internal reflection all along the arc formed by the falling water. The same principle is used to transmit light signals through flexible optical fibers.

## A Candle That Sucks Water

Place a candle upright in the middle of a saucer. Fill the saucer with water. Light the candle. Place a glass over the candle. When the flame goes out, the water in the saucer will get sucked into the glass.

## How Does It Work?

When the candle is burning inside the glass, the heat makes the air expand, so some of the air escapes outside the glass. The candle goes out after it uses up all the oxygen, so the air inside the glass cools. As it cools, the pressure inside the glass drops. Some of the carbon dioxide formed by the flame dissolves in the water as well, decreasing the pressure even more. The water outside the glass on the saucer is forced into the glass by the higher air pressure outside.

# Baishakhi Celebration

Our young Pietians rocked the stage with their zeal and enthusiasm on the special occasion of Baisakhi Celebration through an outstanding dance performance . The Children also delivered special speeches on the occasion of Baisakhi and commemorated the architect of the constitution of India' Dr. Bhim Rao Ambedkar' to mark his 128<sup>th</sup> birth anniversary falling on 14<sup>th</sup> April.

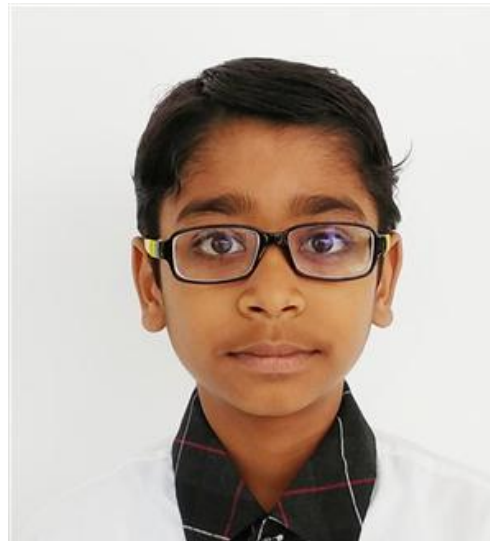

# TAEKWONDO CHAMP

- ▶ TAEKWONDO COMPETITION was held at Karnal from 20<sup>th</sup> April-21<sup>st</sup> April'19

*Yaman Garg*

(Grade VII under 33kg Category)  
won *3<sup>rd</sup>* position

    - ▶ The participants were as follows:
      - ▶ *Ananya tayal*
      - ▶ *Daksh Ahuja*
      - ▶ *Vidhi kadyan*
      - ▶ *Akshita Garg*

# YOUTH FORUM

## 3. International Council of Science

- The participants were as follows:
  - Akshtat Sharma
  - Kartik Athwal
  - Isha Bharti
  - Sushroot Sood
- The young Pietians were highly appreciated by their Chair leaders for their Outstanding Performance. The Conference provided a learning Platform for them to Speak on various issues of their Interests. ISHA BHARTI of grade X was acknowledged and applauded for being one of the best Speakers from International Council of Science panel.
- We are proud of their hard work and relentless efforts to shine high!

# Voter's Day (12<sup>th</sup> May 2019)

# Doctor's Day

"In lieu of **Doctor's Day Celebration**- A talk was organised in the School campus to spread awareness about Sexual assault and Sexual abuse that young females go through" The talk began by Advocate Anju Singh who explained the need for having Sex Education in the School, She also gave the depth of understanding as how to explain the concept of Good touch and Bad touch to the children of today's youth with the help of 3Rs.

1R- Respect your Body

2R- Recognise the offence

3R- Raise your Voice

The talk was very informative in which Dr. RP Jindal explained about all the medical issues that children of the School suffer in day to day life and how the precautions against such emergencies could be taken by the teachers as a first hand help.

It was a good platform for the teachers which rendered the informative environment and get their general Queries concerning Medical issues resolved by the Doctor.

# Chess Competition

- ▶ At PIET we take immense pride to state that POORAV KADYAN of Grade IX A has made the Panipat District proud of his achievement in *COMMONWEALTH CHESS CHAMPIONSHIP-2019 under 14 age category by scoring 4 point of possible 7 rounds and securing 20th place on the merit list out of hundreds.*
- ▶ *The School bless him for his future endeavors!*

# World Population Day

- ▶ The children of PIET Sanskriti School,NFL celebrated the World Population day with the high spirit .
- ▶ The primary lot of the School of grade I and II visited the Mittal Mega Mall,Panipat to spread the awareness about World Population day by various innovative techniques such as handwritten slogans, posters, group activity etc.
- ▶ The people at Mall were surprised and happy with the efforts of Tiny lot of the School.
- ▶ The School also organised Slogan writing and poster making competition for the Senior wing in lieu of World Population day. The efforts taken by children were appreciated by Ms. Rekha Bajaj,Principal PIET,NFL and Ms. Bobby Singh, Vice Principal, PIET NFL.

# Hubs of Learning

As per the new guidelines by CBSE under Hubs of Learning, Art Competition was held at PIET Sanskriti Senior Secondary School NFL on 8th August 2019 in which various schools like St. Mary School, Sanskriti Public and PIET Sanskriti Senior Secondary School, NFL participated in high spirits with great enthusiasm. The show comprised of various events in which Children of Grade VI-VIII presented the importance of Water Conservation in the form of an art and Grade IX-X presented a beautiful art form on Save the Environment. The event was successfully hosted by PIET Sanskriti School, NFL.

Art Competition was wisely adjudged by - Ms. Saranjeet Kaur and Ms. Mamta.

## The result of the Art Competition was as follows: Water Conservation

- I Position- Aryan Sharma ( St. Mary School)
- II Position- Harshita (Sanskriti Public School)
- III Position- Aditya Malik(PIET NFL)

## Save the Environment

- I Position- Vesh(S.D. Modern School)
- II Position -Yashika(St. Mary School)
- III Position- Akshita Garg(PIET sanskriti, NFL)

# Independence Day 2019

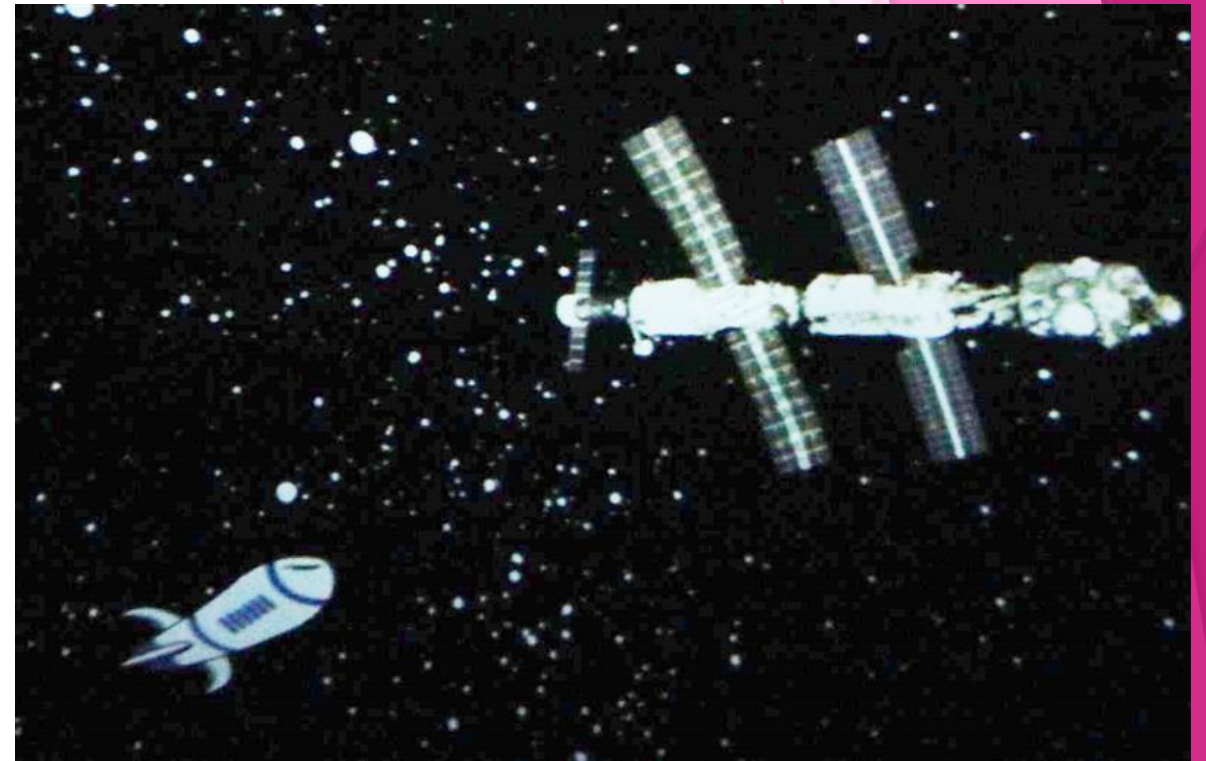

- ▶ Commemorating the sacrifices made by our great freedom fighters and rededicating ourselves to the spirit of service and sacrifice for the nation on this special day.
- ▶ *The Independence Day celebrations 2019 made every individual relate with emotions as this day is of great Historical importance for all the Indians.*
- ▶ Children of PIET Sanskriti School Huda, PIET Sanskriti Senior Secondary School, NFL and PIET College, Samalkha represented beautiful forms of Dance, Skit and Semi Classical Song. The Occasion was beautifully graced with the presence of Chairman, Principal of all PIET branches, Vice Principal, Faculty members and the dear Children of the School

# Mini Planetarium

Kolkata boasts its massive Birla Planetarium. We too had a mini planetarium at our school premises to nurture the interest of kids in outer space and in the various heavenly bodies present in the universe. It was an informative show which showed the story of the first dog to go in space - Laika. The presentation grabbed the attention of the kids. They looked up just like they would gaze upon the sky and unraveled the mysteries of the universe on their own.

# JANMASHTAMI

In order to celebrate the birthday of Lord Krishna, a celebration was organized by the students of PIET Sanskriti Senior Secondary School, NFL. The tiny tots of Primary Wing came in traditional attire and presented a beautiful Bhajan.

Some Boys came dressed as "Krishna" and some girls came dressed as "Radha"

Classes 6-10 presented a beautiful Dandia dance .. They depicted the true meaning of friendship through their Dance and showed a lovely friendship of Krishna and Gopiya. Classes 3-6 made the flutes and crowns for Lord Krishna. Beautiful decorations were put up to make the event more cheerful and colourful. The tiny tots also rocked little Krishna's cradle.

The event gave a beautiful essence of JANMASHTAMI and it ended by distribution of Sweets in the form of PRASADA.

*Incharge Principal Mrs. Rekha Bajaj encouraged everyone to keep the Indian Culture intact and also welcomed our worthy Chairman Mr. Suresh Tayal .*

# Fit India Movement

- ▶ The “Fit India Movement” was launched by Hon’ble Prime Minister Sh. Narendra Modi on 29th August, 2019 at Indira Gandhi Indoor Stadium, New Delhi to celebrate the National Sports Day on the birthday of Indian Hockey player Major Dhyan Chand .
- ▶ The staff, students and non-teaching staff of PIET Sanskriti Sr. Sec. School witnessed the entire programme of FIT INDIA in the school through online service.

# Ganesh Chaturthi

- ▶ The School has always believed in marking the great significance of Indian festivals.
- ▶ Here is the glimpse of the beginning of the day with Lord Ganesha's blessings.
- ▶ Our worthy chairman sir enlightened the day with the ganesha aarti where all the faculty members along with senior students were present that concluded with the distribution of prasada to the whole school. We wish you all a very happy ganesh chaturthi. Enlighten your mind, let the light of Ganesha shine through.

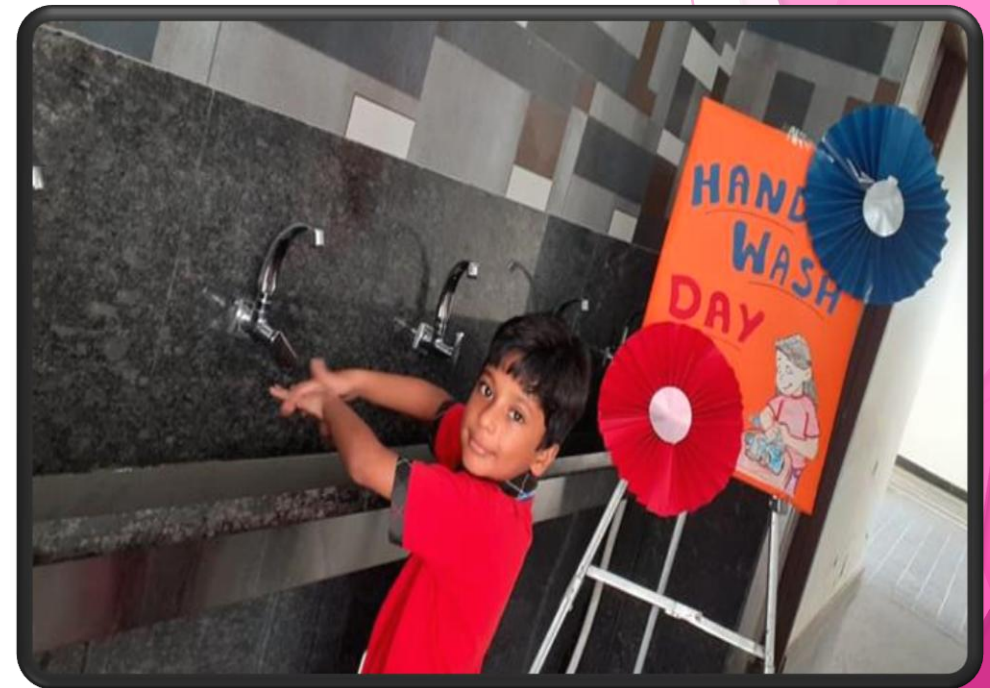

# Teachers Day

- ▶ The school organised a beautiful function for the faculty members on the occasion of Teacher's day. Its truly said " A teacher is the one who guides the best path and nourishes the child beautifully". The staff expressed their heartfelt gratitude to the Management for making the teachers of PIET Sanskriti NFL feel special. The event involved various cultural events which was organized at PIET college and it was followed by delicious lunch.
- ▶ A glimpse of teacher's day celebration is as follows:

# Swachh Bharat Abhiyan

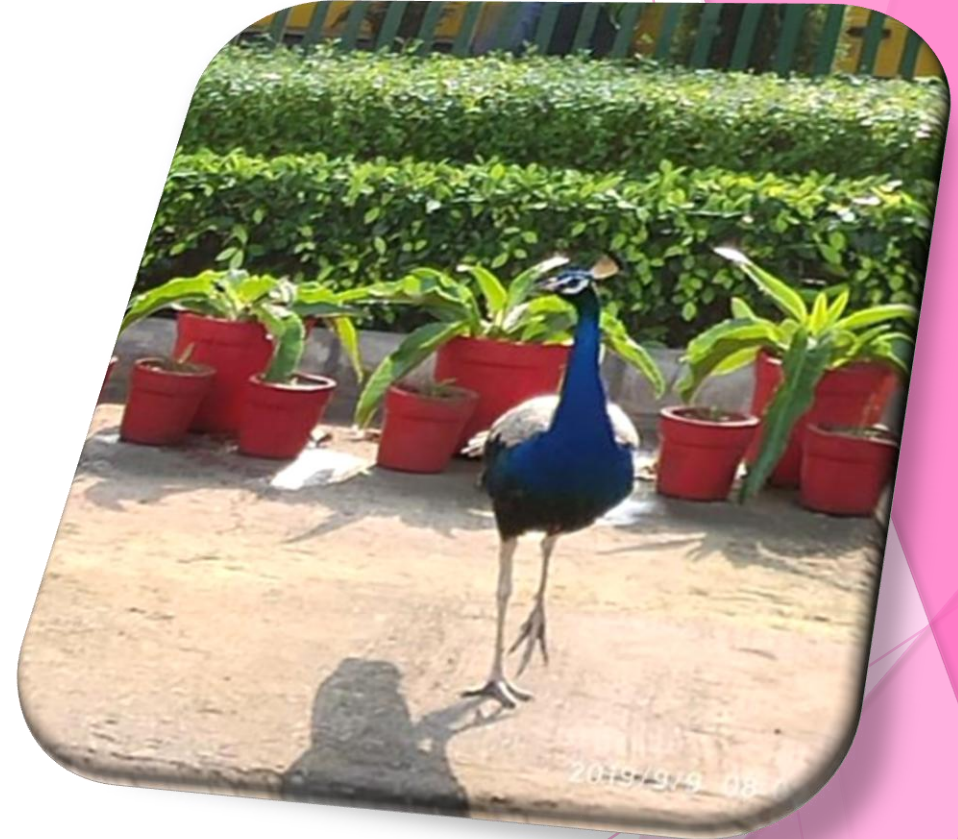

Good hand washing is the first line of defense against the spread of many illnesses — from common cold to more serious infections. So Grade 4 students learnt how to do proper hand washing.

# Graceful Peacock

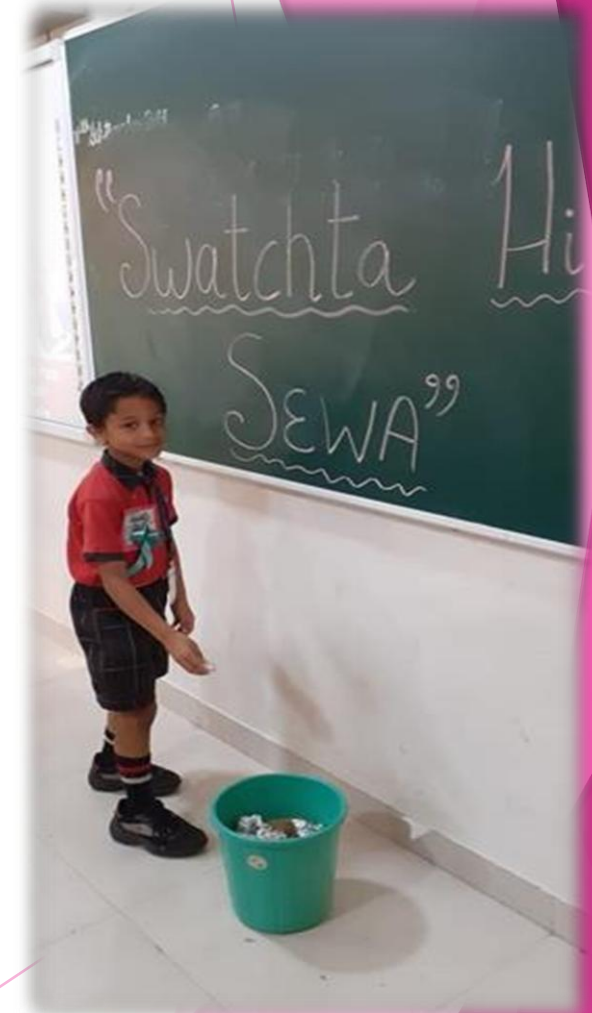

In the midst of rush, When we are always in a hurry, the beauty of the nature multiplied with the arrival of this beautiful peacock that one could not resist capturing it. The grace of the garden was multiplied when the peacock spread its feathers. Here is the glimpse of the beautiful garden of PIET Sanskriti Senior Secondary School when ray of positivity brightens with the arrival of such enlightening birds which brightens the school ambience and make the school campus filled with beauty and that is one uniqueness of PIET NFL.

# SWATCHTA HI SEWA Campaign

Cleanliness is the way to godliness which means maintaining cleanliness and thinking good bring a person more near to the god. The real sewa is to keep the surroundings clean. So our little stars of grade 3 participated in "SWATCHTA HI SEWA" campaign.

# A day well spent with the Special ones

The special children from Divya School were welcomed by PIETIANS with warmth and grace.

The special children were so charming that our young students from PIET could not resist themselves interacting and playing with them. Our School officials took the great responsibility with so much pride of making this day a special one for them, They all engaged the little ones in indoor and outdoor games.

The PIETIANS interacted with these special children through Sign language. It was so beautiful that these special children from Divya School did not feel alienated and had a sense of belongingness.

During their visit to school, Our worthy Principal and Vice Principal were present there and the Coordinator of Divya School made this visit of the special individuals possible.

# A VISIT TO TRAFFIC PARK

In order to get inclined with Work Education proposed by CBSE recently, Our Students of PIET Sanskriti Senior Secondary School had gone for a visit to traffic park to get familiar with the basic traffic rules .It's vitally important to help shape children and young people's understanding towards road safety, to help give them the best chance of keeping safe while they're young and as they get older.

In lieu of acquainting children with productive activities in the community, Grade 9th children were given great knowledge about the traffic rules through a visit to Traffic Park.

# Computer Operation and Maintenance

Computer Operation and Maintenance Children of Grade 10th were well acquainted with the Computer Operation and Maintenance skills. They were trained with basic maintenance tasks in which handling of computer with care and its operations with basic expertise were delivered to children.

# FIRST AID ACTIVITY

# VISIT TO BHUTAN

Cultural exchange programme in school efficiently propels the students to understand diversity in country and also efficiently makes learn to easily co-exist as well as feel the compassion on different communities.

PIET SANSKRITI SENIOR SECONDARY SCHOOL, Panipat got the opportunity to go to Bhutan with the delegation of 21 students headed by Vice Principal Ms Bobby Singh and Ms Kanak Sharma on 25th September 2019 as a part of Indo-Bhutan Exchange Program.

The gracious Bhutanese host Pelkin school received their Indian guests with lots of warmth at the airport. The beautiful drive through the mountains introduced the first glimpse of the beauty of Bhutan “The Land of Happiness.”

# VISIT TO BHUTAN
